at 9 this morning. GREAT BRITAIN .- In the House of Lords on the 12th, notice was received from the House of Commons that they had agreed to an address to the Crown on the subject the commercial treaty with France, whereupon Lord Thornton gave notice that he would move for a similar address from the House of Lards on the 15th.

In the Commons on the 12th Lord John Russell stated, in reply to inquiries, that a great deal of correspondence has taken place with Naples relative to the Constitutional reforms recommended by England and France, and is a few days he hoped to lay it on the table.

A general discussion then took place on the Savoy question, in the course of which Lord Palmerston and Lord Russell deprecated the continued recurrence of these ir ritating debates, and urged the Opposition, if they objected to the course of the Government, to boldly move a vote of censure. when Ministers would be fully prepared to defend their course.

Mr. Gladstone moved the second reading

Miles moved an amondment that as the duty on paper will necessitate the addition of one penny on the pound to the income tax, it is the opinion of the House that such repeal, under such circumstances, at the present moment, is inexpedient. After further debate, the amendment was rejected, by a vote of 192 to 245,

The bill was then read a second time. In the Commons, Lord John Russell laid upon the table further correspondence relative to the affairs of Italy, and explained the attitude of the Government, both as regards Italy and Savoy. He asserted that hostility all along had been shown to the contemplated annexation of Savoy to France; and that as regards Italy, the policy of the Government was dictated by the sole desire of securing the permanent peace
